

2017 Training Courses

Based on knowledge and experience gained through designing, installing and maintaining networks at over 90 open-pit mines worldwide, 3D-P offers a range of customizable, hands-on courses designed around your mine's specific requirements.

Available all year long, either onsite or at one of 3D-P's worldwide offices, these courses empower your staff with the knowledge necessary to configure and deploy your network and on-board clients, and to better manage your wireless network on-site.

Each course includes the following modules:

Networking Basics • Wireless Network Design • Antenna Selection • Troubleshooting • Deployment Considerations

"The Cripple Creek and Victor Mine has just completed their third training with 3D-P and they have always been very informative, well-prepared courses. They provide the perfect balance of knowledge transfer and hands-on training. The instructors have years of experience to bring to the table in a very direct but fun way. I would highly recommend any 3D-P training course as they benefit anyone from the aspiring network administrator to the boots-on-the ground field technician."

Kerry Davis, Engagement Architect
Cripple Creek and Victor Mine, Newmont

3D-P/Rajant Technical Course

This 3-day course provides 3D-P customers with the skills to configure and deploy a Rajant wireless network at site using Rajant Breadcrumbs and 3D-P Intelligent Endpoints.

Course Outline

- ✓ Radio - The building blocks
- ✓ Introduction to Rajant technologies
- ✓ Rajant's BC|Commander
- ✓ Rajant and the IEP
- ✓ CLI/Configuration basics
- ✓ EPM configuration

802.11n Technical Course

This 3-day course provides 3D-P customers with the skills to configure and deploy an 802.11n network, as well as 802.11n equipped Intelligent Endpoints on site.

Course Outline

- ✓ Radio - The building blocks
- ✓ 802.11n and the IEP
- ✓ CLI/Configuration basics
- ✓ EPM configuration
- ✓ Infrastructure configuration

3D-P/Rajant Course

This accelerated 2-day hands-on classroom course is for 3D-P customers with significant experience managing 3D-P hardware, who are upgrading to Rajant technologies.

Course Outline

- ✓ Introduction to Rajant technologies
- ✓ Rajant's BC|Commander
- ✓ Rajant and the IEP
- ✓ CLI/Configuration
- ✓ EPM Configuration

Rajant Only Technical Course

This 2-day hands-on classroom course provides 3D-P customers with the skills to deploy and support a Rajant network using Rajant Breadcrumbs only.

Course Outline

- ✓ Radio - The Building blocks
- ✓ Introduction to Rajant technologies
- ✓ Rajant's BC|Commanders
